Use of Non-GAAP Financial Information

Diebold Nixdorf has included non-GAAP financial measures in this presentation to supplement the Company's condensed consolidated financial statements presented on a GAAP basis. Definitions of these non-GAAP financial measures and reconciliations of these non-GAAP financial measures to the most directly comparable GAAP financial measures are included elsewhere in this presentation.

The Company's management uses non-GAAP and unaudited pro forma revenue and gross margins for consolidated results and the three segments (services, systems and software). Additionally, the Company uses non-GAAP operating expense, non-GAAP operating profit, non-GAAP tax rate, non-GAAP net earnings, and non-GAAP diluted earnings per share, and excludes gains, losses or other charges that are considered by Diebold Nixdorf's management to be outside of the Company's core business segment operating results. EBITDA and adjusted EBITDA are key measures used to evaluate our operational performance. In addition for revenue and adjusted EBITDA, we have provided pro forma comparisons for 2016 to facilitate comparisons with future periods. Net debt and free cash flow are liquidity measures that provide useful information to management about the amount of cash available for investment in Diebold Nixdorf's businesses, funding strategic acquisitions, repurchasing stock and other purposes.

These non-GAAP and pro forma financial measures may have limitations as analytical tools, and these measures should not be considered in isolation or as a substitute for analysis of Diebold Nixdorf's results as reported under GAAP. Items such as impairment of goodwill and intangible assets, though not directly affecting the Company's cash position, represent the loss in value of goodwill and intangible assets over time. The impairment expense associated with this loss in value is not included in non-GAAP operating profit, non-GAAP net earnings, non-GAAP diluted earnings per share and therefore does not reflect the full economic effect of the loss in value of those goodwill and intangible assets. In addition, items such as restructuring charges and non-routine expenses that are excluded from non-GAAP gross profit, non-GAAP operating expense, non-GAAP operating profit, non-GAAP net earnings, and non-GAAP diluted earnings per share can have a material impact on cash flows and earnings per share. In addition, free cash flow does not represent the total increase or decrease in the cash balance for the period. The non-GAAP financial information that we provide also may differ from the non-GAAP information provided by other companies.

We compensate for the limitations on our use of these non-GAAP financial measures by relying primarily on our GAAP financial statements and using non-GAAP financial measures only supplementally. We also provide robust and detailed reconciliations of each non-GAAP financial measure to the most directly comparable GAAP measure, and we encourage investors to review carefully those reconciliations.

We believe that providing these non-GAAP financial measures in addition to the related GAAP measures provides investors with greater transparency to the information used by the Company's management in its financial and operational decision-making and allows investors to see the Company's results "through the eyes" of management. We further believe that providing this information better enables investors to understand the Company's operating performance and to evaluate the efficacy of the methodology and information used by management to evaluate and measure such performance.

Forward-looking Statements

In this presentation, statements that are not reported financial results or other historical information are “forward-looking statements”. Forward-looking statements give current expectations or forecasts of future events and are not guarantees of future performance. These forward-looking statements relate to, among other things, the company’s future operating performance, the company’s share of new and existing markets, the company’s short- and long-term revenue and earnings growth rates, and the company’s implementation of cost-reduction initiatives and measures to improve pricing, including the optimization of the company’s manufacturing capacity.

The use of the words “will,” “believes,” “anticipates,” “expects,” “intends” and similar expressions is intended to identify forward-looking statements that have been made and may in the future be made by or on behalf of the company. Although the company believes that these forward-looking statements are based upon reasonable assumptions regarding, among other things, the economy, its knowledge of its business, and on key performance indicators that impact the company, these forward-looking statements involve risks, uncertainties and other factors that may cause actual results to differ materially from those expressed in or implied by the forward-looking statements. The company is not obligated to update forward-looking statements, whether as a result of new information, future events or otherwise.

Readers are cautioned not to place undue reliance on these forward-looking statements, which speak only as of the date hereof. Some of the risks, uncertainties & other factors that could cause actual results to differ materially from those expressed in or implied by the forward-looking statements include, but are not limited to:

- the ultimate impact of the domination and profit and loss transfer agreement (DPTLA) with Diebold Nixdorf AG; and the outcome of the appraisal proceedings initiated in connection with the implementation of the DPTLA;
- the ultimate outcome and results of integrating the operations of the company and Diebold Nixdorf AG;
- the ultimate outcome of the company’s pricing, operating and tax strategies applied to Diebold Nixdorf AG and the ultimate ability to realize synergies;
- the company’s ability to successfully operate its strategic alliances in China with the Inspur Group and Aisino Corp.;
- the changes in political, economic or other factors such as currency exchange rates, inflation rates, recessionary or expansive trends, taxes and regulations and laws affecting the worldwide business in each of the Company’s operations, including the impact of the Tax Act;
- the company’s reliance on suppliers and any potential disruption to the company’s global supply chain;
- the impact of market and economic conditions on the financial services markets;
- the capacity of the company’s technology to keep pace with a rapidly evolving marketplace;
- the pricing and other actions by competitors;
- the effect of legislative and regulatory actions in the United States and internationally;
- the company’s ability to comply with government regulations;
- the impact of a security breach or operational failure on the company’s business;
- the company’s ability to successfully integrate acquisitions into its operations;
- the impact of the company’s strategic initiatives;
- and other factors included in the company’s filings with the SEC, including its Annual Report on Form 10-K for the year ended December 31, 2016 and in other documents that the company files with the SEC

Non-GAAP EPS Bridge

¹ The company expects a non-GAAP effective tax rate to be in the mid-20 percent range for the full year. With respect to the company's non-GAAP tax rate outlook for 2018, it is not providing the most directly comparable GAAP financial measure and, with respect to the company's non-GAAP tax rate and adjusted EBITDA for 2018, the company is not providing corresponding reconciliations because it is unable to predict with reasonable certainty those items that may affect such measures calculated and presented in accordance with GAAP without unreasonable effort. These measures primarily exclude the future impact of restructuring actions, net non-routine items, acquisition, divestiture and integration-related expenses and purchase accounting fair value adjustments. These reconciling items are uncertain, depend on various factors and could significantly impact, either individually or in the aggregate, our future period tax rate and net income calculated and presented in accordance with GAAP. Please see "Use of Non-GAAP Financial Measures" for additional information regarding our use of non-GAAP financial measures.
